Ref: 6921002627405

Lightning to AUX mini jack 3.5mm + Lightning adapter, Mcdodo CA-2740 (gray)

Lightning to AUX mini jack 3.5mm + Lightning adapter, Mcdodo CA-2740 (gray)

Did your phone drain while watching the latest episode of a TV show? You no longer have to give up your headphones to replenish your device's power. The Mcdodo adapter solves the problem of lack of space and offers two additional ports - Lightning and AUX mini jack 3.5mm. Now you can charge your phone and use your headphones at the same time. The product features a robust design and supports fast charging protocols. It provides stable audio transmission and does not affect the functions of the headphones' built-in remote control and microphone.

Don't give up your favorite entertainment

You no longer need to unplug your headphones to charge your device. The adapter allows you to plug in a Lightning charger and a 3.5mm jack at the same time. This allows you to comfortably watch a movie, play a game or listen to your favorite music while your device is charging. The product supports fast charging protocols, so you can replenish your phone or tablet in no time.

Excellent sound quality

The built-in chip ensures stable data transmission, so you can enjoy excellent sound quality without distortion or delay. What's more, the

adapter supports phone calls and does not affect the operation of the headphones' built-in remote control, so you can freely control music and calls without worrying about any interference.

#### Solid construction

The adapter is made of high-quality materials, so it is resistant to wear and damage. It will surprise you with its modern design, and thanks to its compact design it will fit even in your pocket.
