Lightning cable Mcdodo CA-3141 2W, 1.8m (black)

Ref: 6921002631419

Mcdodo Lightning cable CA-3141, 12W, 1.8m (black)

Looking for a cable that will allow you to quickly and safely renew the power in your iPhone or iPad? The Mcdodo CA-3141 cable is sure to meet your needs. The cable offers charging with up to 12 watts of power and 3A amperage. It provides maximum safety during use, and its design is distinguished by above-average durability and resilience. It also features a light indicator that will inform you of the charging status. The cable is compatible with Apple-branded equipment.

Enjoy fast charging

You no longer have to wait indefinitely for your device to be ready for use again. The cable allows you to charge with a maximum power of up to 12 watts and an amperage of 3A. This will charge your smartphone or tablet in no time. In addition, the cable allows simultaneous charging and data transmission at speeds of up to 480 Mbps.

High quality construction

The durable nylon braided cable is characterized by exceptional resistance to wear and tear and mechanical damage. It is also resistant to repeated bending and does not tangle. The end of the cable has been additionally reinforced, so you can be sure that the cable will

serve you for a long time. What's more, it has passed a number of tests that confirm its durability. The high-quality copper cable guarantees fast and stable charging.

For the sake of safety

Safely charge your devices without worrying about damaging them. The product uses specially developed MSC technology and features a dual chip that continuously monitors charging and provides the necessary protection for connected devices. The cable also uses innovative MAPO technology, which will automatically terminate charging when the charge level reaches 100% to prevent overcharging.

Smart LED indicator

The cable features a smart LED light indicator that will let you know the charging status of your device. An orange light indicates fast charging, while a blue light indicates sustained charging. The built-in indicators will also help you locate your connected device in the dark.
