Ref: 6922794743434

USB-C cable to Lightning, Vention TACHF, 1m (Gray)

USB-C cable to Lightning, Vention TACHF, 1m (Gray)

Enjoy fast and secure charging of your iPhone. The USB-C to Lightning cable by Vention supports PD 3 A fast charging and is MFi certified, which means it is fully compatible with Apple devices, meets their requirements and protects them from damage. With its help, for example, you can charge an iPhone 12 Pro in just about 97 minutes! The product also allows you to transfer files at speeds of up to 480 Mbps. Now you only need a few moments to copy the photos or videos of your choice - you don't have to wait too long!

Improved design

The cable is equipped with the same connector found on Apple products. As a result, it provides reliable, secure operation and fast, stable transmission. What's more, its most vulnerable components have received additional protection. The cable also has aluminum alloy covers and a nylon braid, which increases its resistance to bending, abrasion, breakage or wear.
