Darkflash DK361 computer case + 4 fans (white)   Ref: 4710343794684

Darkflash DK361 computer case + 4 fans (white)

Darkflash DK361 computer case + 4 fans (white)
The Darkflash DK361 computer case will allow you to build a computer on which you can work comfortably or play your favorite games without interruption. The product works with different types of components and offers several ports, such as USB 3.0 and USB 2.0. You will also find 4 fans included.

Original design
The Darkflash DK361 features a modern and stylish design. The tempered glass side panel allows you to achieve unique visual effects with RGB fans, for example. The front part, on the other hand, is covered with a metal mesh, and you won't have a problem removing it - you can easily clean it, too.

Several available ports
The Darkflash DK361 computer case is equipped with several ports that will make your work in front of the computer easier. There are 3 ports available: USB 2.0, USB 3.0, which provides high-speed signal transmission, and HD Audio. What's more, the case also features a reset and power button.

The computer the way you want it

Darkflash allows you to assemble the computer of your dreams. It allows you to mount HDD and SSD drives, CPU cooling of max. 160 mm and a graphics card with a maximum length of 350 mm. What's more, it works with motherboards of standard: ATX/M-ATX/ITX. In addition, it provides 7 expansion card slots so you can customize your computer's operation.

Efficient CPU cooling
Use demanding programs and don't worry that your computer will overheat. The case allows you to install 120mm or 140mm fans and 120/240/360mm water cooling. In addition, the kit includes 4 fans.
