

## LDNIO Car Mount ,MA02 with inductive charger 15W (Black)

Ref: 6933138691854

LDNIO Car Mount ,MA02 with inductive charger 15W (Black)

Car holder with inductive charger LDNIO MA02

Do you often drive a car and are looking for a sturdy holder that will hold your phone stably? Or do you enjoy exploring new places and want convenient access to navigation? LDNIO's product will not only work great as a 360° adjustable mount, but will also act as a 15W inductive charger. Mounting the product on the ventilation grille is surprisingly easy, and automatic latches add to the convenience of use. What's more, the gadget is widely compatible with all smartphones and is equipped with a USB-C port.

One gadget - a range of applications

Opt for a practical proposition from LDNIO and enjoy the possibilities offered by the MA02. The product will not only act as a holder that stably holds your smartphone, but also renews its energy wirelessly with a power of 15 watts. All you have to do is place your phone in the holder and the latches will automatically tighten, ensuring the highest level of security for your device.

Made with attention to detail

The LDNIO device features a USB-C port that supports QC3.0 and PD fast charging protocols. You can adjust the product's angle by 360°, so you can easily adjust the position of your phone to suit your needs. The charger also stands out for its impressive magnetic strength. Are you worried that MA02 will not be compatible with your phone? Don't be - the device will work perfectly with all phone models of different sizes.
