

LDNIO LS631 USB - Micro USB 1m, 30W Cable (Blue)

Ref: 6933138700198

LDNIO LS631 USB - Micro USB 1m, 30W Cable (Blue)

LDNIO LS631 1m USB - Micro USB cable, 30W (blue)

Enjoy the benefits of fast charging and rest assured that your devices will be up and running in no time. The LS631 cable provides up to 30 W of power, and allows you to transfer files at speeds of up to 480 Mbps. It's made of durable, environmentally friendly materials and is extremely resistant to damage.

Impressive charging power

Is your phone close to draining and you have to leave for work right away? Connect it to power with the LS631 cable and don't worry about a thing! The product offers up to 30 W of power, which means it can charge your devices in a very short time. No longer do you have to wait long for your smartphone or tablet to be ready for use again!

Durable construction

The cable is made of high-quality materials such as TPE, PVC and aluminum alloy. This makes it very durable and not prone to wear and tear, and it won't get tangled. The high-density braid protects it from damage, and it is also not afraid of pulling and bending. What's more, its connectors are very durable and resistant to oxidation.

Transfer files in the blink of an eye

Do you often transfer photos between devices? Or do you happen to copy important documents? The LS631 cable will come in handy for that too! The product allows you to enjoy transmission speeds of up to 480 Mbps. This will allow you to send all the photos or videos you need very quickly.
