

External USB 2.0 audio card Vention CDRBF 1m (black)

Ref: 6922794754676

External USB 2.0 audio card Vention CDRBF 1m (black)

External USB 2.0 sound card Vention CDRBF 1m (black)

Solve the problem of limited jacks on your laptop with the Vention external sound card! It features a headphone port, microphone port and 2-in-1 port, allowing you to expand the sound capabilities of your device. Thanks to its USB 2.0 interface, connecting it to various devices is extremely easy. The construction of the card has been designed with attention to the smallest details, which will make it easier and more convenient to use.

3 ports for greater flexibility

The device is equipped with as many as 3 jack ports - a headphone jack, a microphone jack and a 2-in-1 jack. This makes it easy to connect headphones, speakers or a microphone. You can also seamlessly connect 2 separate sets of headphones at the same time and enjoy the sounds of your favorite songs together with a loved one!

Thoughtful design

The design of the device will delight you with its functionality. The built-in volume control knob makes adjusting the sound extremely easy. Now you can easily control the volume level, adjusting it to your preferences. Practical buttons will allow you to mute the microphone or headphones in an instant, giving you full control over the sounds you play. What's more, the blue LED indicators will let you know the operating status of the device.
