

Electric Scooter Navee N40

Electric Scooter Navee N40

Ref: 6975293670169

Navee N40 electric scooter

Enjoy a hassle-free ride around the city and beyond. The Navee N40 electric scooter offers a top speed of 20km/h and has a range of up to 40km. It is also distinguished by a dual braking system, a load capacity of up to 100kg and IPX4 water resistance. Its additional advantages include a foldable design and front lighting with a brightness of 40 lux. The vehicle is also equipped with a 350W motor and large 10-inch wheels.

Range of up to 40km

Daily commute to school or work, short trips out of town, or maybe a trip to the park with friends? No longer do you have to worry that the scooter will suddenly discharge and derail your plans! The N40 has a built-in durable battery that provides a range of up to 40km. Forget about the need for frequent charging! However, this is not the end of the conveniences. An advanced BMS system is responsible for optimizing the battery's performance.

Smooth and pleasant driving

Feel the wind in your hair and get even more pleasure from riding. The scooter is equipped with a brushless motor, whose power reaches 350W. As a result, it guarantees smooth, stable operation and perfectly handles inclines of up to 12°. A comfortable ride is also ensured by a large platform with a width of 15cm and a specially designed handlebar with pleasant-to-touch grips.

Improved design

Bet on proven solutions and enjoy comfort. The scooter is equipped with 10-inch wheels with pneumatic tires, which are excellent at absorbing shocks and allow you to ride comfortably even on bumps. Now you won't be intimidated by low curbs, crooked paving slabs or cobblestones! What's more, thanks to the solid frame made of aluminum alloy, the scooter can easily withstand a load of up to 100kg.

Enjoy a safe ride

Have confidence that if the need arises, you will stop immediately and avoid an accident. The scooter offers up to 2 brakes - electric and disc, which guarantee short stopping distances and reliability. Its additional advantage is front lighting with a brightness of 40 lux. Thanks to it, you can increase your visibility while riding and you will easily get home even after dark!

User-friendly

Choose from 3 speed levels and adjust the scooter to your expectations. There is also a special mode for pedestrians - you will successfully use it, for example, on a crowded sidewalk. To check the selected option, just glance at the built-in screen of the vehicle. On it you will also find information on battery level, speed and more.

Foldable design

Transporting and storing the scooter will not cause you any problem. The N40 is distinguished by its foldable design - when folded, it becomes small enough that you can easily fit it, for example, in the trunk, in the corner of the office, in the garage or in the hallway. Moreover, if necessary, you can easily move the vehicle from place to place. Folding and unfolding the scooter is very easy and fast.
