HDMI 90 degree Adapter Vention 4K 60Hz, AlQB0 (Black) HDMI 90 degree Adapter Vention 4K 60Hz, AlOB0 (Black)

Vention AIQB0 HDMI angle adapter, 4K 60Hz (black)

The Vention AIQB0 HDMI angle adapter is an innovative tool that combines unparalleled performance and versatility. Designed to work in two modes, mirror and dual screen, it enables efficient image management across different devices. It supports resolutions up to 4K@60Hz, guaranteeing excellent image quality. Its durability, oxidation resistance and angular design make it a reliable and practical solution for everyone.

Thoughtful design

The Vention AIQB0 HDMI angle adapter is a highly compatible device that works efficiently with a variety of equipment such as laptops, desktops and TV boxes. It is equipped with a standard HDMI connector, which guarantees reliable and efficient connections. One of the greatest assets of this product is its durability and robustness, which ensure stable data transmission, regardless of the conditions. In addition, its angled design allows you to connect devices even in hard-to-reach places, increasing its practicality and versatility.

Excellent quality

The Vention AIQB0 is a modern and versatile image management tool. Featuring dual screen mirror and dual screen operation, it allows the same image to be displayed simultaneously on multiple devices or different images to be presented on different screens. This is ideal for those who want to increase their productivity or improve the quality of their presentations. The adapter supports resolutions of up to

4K@60Hz, guaranteeing the highest image quality, regardless of the type of material being displayed.
