

Adapter USB-C male to DisplayPort female Vention TCCH0 4K 60

Ref: 6922794742635

Vention USB-C - DisplayPort Vention TCCH0 (Black)

Vention USB-C - DisplayPort Vention TCCH0 (Black)

Comfortably watch movies, give presentations or play games on a bigger screen. Vention's USB-C to DisplayPort adapter supports 4K / 60 Hz resolution and is backward compatible with 1080p and 720p. It also guarantees perfect audio and video synchronization, and a smart chip is responsible for its reliable, stable operation. At the same time, the product is very light and portable, yet durable - the aluminum alloy and ABS plastic housing protects it from damage, and its gold-plated connectors are resistant to oxidation.

Plenty of applications

For example, the adapter will allow you to connect a phone or laptop equipped with a USB-C port to a TV or monitor. So you can comfortably play games, watch series, make presentations at meetings and show your loved ones your vacation photos! The product supports 2 display modes - Mirror (same image on the device and second screen) and Extended (screen extension). Enjoy great quality photos and videos in almost any situation!
