

Car charger Joyroom JR-CL08, 3-in-1, 1x USB + 1x PD, 55W + L

Ref: 6956116755898

Car charger Joyroom JR-CL08, 3-in-1, 1x USB + 1x PD, 55W + Lightning cable (black)

Joyroom car charger JR-CL08, 3-in-1, 1xUSB 1xUSB-C + Lightning cable 55W (black)

Be prepared for any situation when travelling by car! The Joyroom JR-CL08 car charger is an essential accessory for every driver. Its maximum power reaches up to 45 watts and supports PD, QC, AFC, FC and PPS fast charging. It features 2 charging ports and a spiral Lightning cable, so you can charge up to 3 devices simultaneously. It stands out for its wide compatibility and works perfectly with most vehicles that have a cigarette lighter socket.

High power - fast charging

You no longer have to wait indefinitely for your devices to be ready for use again. The car charger supports the QC3.0, PD3.0, AFC, FCP and PPS fast charging standards. It also offers charging with up to 45 watts of power. This will charge your smartphone up to 5 times faster than with a standard car charger. What's more, the JR-CL08 allows you to charge 3 devices at the same time - it has a USB-C port, a USB-A port and a built-in Lightning cable.

Built-in cable

Forget about forever tangled cables. The JR-CL08 has a built-in Lightning cable, so you can easily renew the power in most Apple equipment. It features a spiral design, so you can easily keep it tidy in your car. In addition, you can extend the cable to up to 1.5m.

With attention to detail

Now you can easily find the charging port even in the dark! The device is equipped with coloured backlighting that makes it easy to connect your devices to the charger. You also don't have to worry about the safety of your devices. The intelligent chip automatically recognises connected devices and adjusts the appropriate charging parameters to them. Furthermore, it effectively protects against overload, overheating, overcharging and overvoltage.

Specification:

Manufacturer

Joyroom

Model

JR-CL08

Colour

Black

Input current

DC 12-24V

Output current

QC3.0: 5V/3A, 9V/2A, 12V/1.5A

PD: 5V/3A, 9V/2.77A, 12V/2.08A

PPS: 3.3-11V=3.0A (Max)

PD+QC3.0: 5V/4A

Lightning cable output current

5V/2.4A, 9V/2.22A

Cable length

1.5 m

Maximum power

45 W

Material

Flame-retardant PC

Dimensions
