

Joyroom JR-ZS311 magnetic dashboard car holder (grey)

Ref: 6956116759865

Joyroom JR-ZS311 magnetic dashboard car holder (grey)

Joyroom JR-ZS311 magnetic car cockpit mount (gray)

Looking for a reliable car mount? You've come to the right place! The Joyroom JR-ZS311 magnetic mount will easily mount on the cockpit of your car, and a number of well-thought-out solutions will provide the required stability for the mounted phone. Extremely strong magnets are capable of holding even a tablet! What's more, the rotating head allows you to position the device in the right position to give you full comfort while driving.

Childishly easy installation

The specially designed base allows you to conveniently mount the mount anywhere. The use of extremely strong 3M nano tape has helped to achieve the required stability, and also allows you to mount the holder repeatedly without leaving marks on the cockpit.

Powerful magnet power

Connect your phone to the holder and enjoy incredible stability. This is provided by highly effective neodymium magnets, which, properly placed, are capable of supporting the weight of your iPad. What's more, the magnetic base is small enough that it won't obstruct the view and disturb the driver while driving.

Set it up just the way you like it

The Joyroom JR-ZS311 magnetic mount is designed to maximize your comfort. The head on which the magnetic base is mounted allows 360° rotation, so you can position your phone as you are comfortable. Horizontal or vertical position? The choice is yours!

Excellent quality and wide compatibility

The product is made of high-quality materials, so you can enjoy its durability for a long time! You can use it with a wide range of devices, even those without the Mag Safe function - it comes with special plates that you can mount directly on your phone or case and enjoy the reliable performance of the JR-ZS311!
