

Bicycle pedals, platform, nylon Rockbros 2017-12CBK (black)

Ref: 5905316145405

Bicycle pedals, platform, nylon Rockbros 2017-12CBK (black)

Bike pedals, platform, nylon Rockbros 2017-12CBK (black)

The Rockbros 2017-12CBK platform bike pedals are perfect for road bikes, mountain bikes and BMX bikes alike. They are made from high quality nylon and molybdenum steel, with a non-slip design for better grip when riding. They are also extremely lightweight, easy to fit and resistant to wear. Clear markings on the threads make it easy to distinguish the left pedal from the right. What's more, thanks to the sealed bearings, the product will perform in almost any weather conditions - even in the rain.
