Joyroom JR-14S3 black case for iPhone 14 Plus

Black Joyroom JR-14S3 case for iPhone 14 Plus

Keep your iPhone 14 Plus safe and secure and get more comfort while using it. The Joyroom JR-14S3 case is made from high-quality PC and TPU materials, effectively protecting the smartphone placed inside from damage. It is also distinguished by a specially designed stand that will allow you to stand your phone stably on a table, shelf or desk.

Reliable protection

The case is made of robust PC and TPU materials, which, in combination with its 2-layer construction, guarantees reliable protection for your smartphone against damage. Now even dropping it on the floor is no longer a threat! What's more, the edges, which are raised by around 1.5mm, further protect your iPhone's screen and cameras.

Built-in stand

The JR-14S3 case also allows you to watch movies, take notes and participate in video conferences in comfort. The accessory features a special stand with two hinges, so you can freely place your phone on any flat surface, position it at the angle of your choice and even rotate it 360°. The cradle is also very robust, using high-grade zinc alloy.

Comfortable to use

Enjoy even more comfort. The case fits perfectly in your hand, and thanks to the fine grooves, it guarantees a secure grip and is non-slip. You no longer have to worry about your iPhone slipping out of your hand, falling to the ground or being damaged! The accessory also features a stylish, modern design - sure to appeal to many users.
