

Charger Tattu TA1200 12S 2 x 1200W

Charger Tattu TA1200 12S 2 x 1200W

Ref: 889551008709

Tattu TA1200 12S / 2 x 1200W charger

Tattu's TA1200 charger is capable of charging 2 sets of lithium batteries simultaneously. The maximum output power is 1200 watts per channel. The user can choose between charging mode and maintenance mode. The charging current is adjustable between 10A, 20A and 30A. It is equipped with a dual LCD display, a charger that automatically indicates real-time charging status, charging voltage, charging current, charging time, battery capacity and cell voltage.

Additional information

When using the continuous operation mode, the charger automatically performs a number of operations. Automatic operations include starting, stopping, testing and switching. When using continuous operation mode, the charger will automatically resume charging if the battery is not removed within 30 seconds of pressing the STOP button.
