Bicycle electronic bell and light Rockbros 7588 (black and red)

Ref: 5905316145986

Rockbros 7588 electric bicycle bell and lamp

Take care of your safety on the road. The flashlight offers 250 lumens of brightness and also functions as a bicycle bell. The durable battery provides a long run time, and charging is made easy with the USB port. What's more, it's IPX5 water resistant, so you can use it in adverse weather conditions.

Bright light

The flashlight uses XREE XMR-T6 LED, so it provides light with a brightness of up to 250 lumens. What's more, its angle of incidence is 160°, so it will illuminate the road in front of you perfectly. In addition, you can choose between 2 brightness levels and a strobe, customizing the flashlight's performance. This task will be made easier for you by the included switch.

Bell

The Rockbros 7588 flashlight also functions as a bicycle bell, so you can further ensure your safety on the road and warn others in time. You can choose between 5 sound modes.

Thoughtful design

The Rockbros 7588 is powered by a 1,200 mAh battery, which translates into about 3 hours of continuous operation at the highest

brightness level. Charging, on the other hand, will be facilitated by a micro USB cable. In addition, mounting the flashlight will not be a problem for you, and the non-slip base provides stability and prevents the device from moving.

Included

flashlight + switch

base

USB cable
