Rockbros summer under-helmet bicycle cap YPP037 (black)

Summer under-helmet cycling cap by Rockbros will increase your comfort and safety during cycling trips on sunny and hot days. The product provides protection from UV rays and has special cutouts that will allow you to comfortably wear glasses while riding. What's more, it is equipped with reflectors and is made of skin-friendly materials that provide high air permeability and effectively absorb sweat.

UV protection

Make sure you protect yourself from UV rays well enough. The Rockbros under-helmet cycling cap provides the highest protection at UPF50+. This means you can take long bike tours without worry even on hot summer days when the sunlight is particularly intense.

Skin-friendly materials

The Rockbros under-helmet cycling cap is made of skin-friendly materials that are characterized by high elasticity, effective sweat absorption and air permeability. A huge advantage is the cut-outs for glasses, which increase their stability during fast riding.

Reflectors

What will further increase your safety are the reflectors that the Rockbros cap is equipped with. With a reflective logo on the forehead, reflective goggle openings and a reflective strip on the back of your head, you can ride your bike without worry even after dark.
