Ref: 6941237165015

Joyroom JR-HG1 round-ear gaming headphones (dark green)

Looking for a proven piece of equipment to complete your gaming corner? Joyroom headphones will be perfect for you! They will provide you with unforgettable sound effects, and moreover, thanks to their LED lighting effects, they will fit perfectly into the whole character of the room. In addition, thanks to the ergonomic design, you can wear them for a very long time.

Reliable equipment

The Joyroom headphones will be an indispensable gaming gadget no matter what hardware you choose, as they are compatible with many devices including PC, MAC, tablet PC, cell phone or PS4/5 and XBOX. Moreover, just plug them in and you can use them right away. Enjoy stable sound, thanks to the 3.5mm plug connection.

Complementing your gaming zone

The Joyroom JR-HG1 headphones will be the perfect complement to your gaming zone with their wonderful LED lighting effects. They will enhance the atmosphere of the entire game in an amazing way, and you will be able to successfully go through more games.

Powerful equipment

Joyroom gaming headphones are distinguished by their excellent sound. Thanks to the powerful 50mm speaker, you can count on

amazing bass effects or immersive and amazing live sound. From today, no opponent will surprise you anymore!

#### Built-in microphone

For more comfortable gameplay and for easier communication with other players, Joyroom headphones are equipped with an adjustable microphone. It perfectly isolates noise, making the transmission of your voice clearer. In addition, it works omni-directionally, so you can adjust it the way you like best.

#### Tailored to your needs

The Joyroom headphones were created with your needs in mind, so they have a volume control, as well as a microphone mute button. You can easily adjust the sound to your liking, or turn the microphone on and off, even during thrilling gameplay. From now on, you will always stay focused while playing!

#### Comfort of use

Joyroom gaming headphones will be comfortable to use, as they feature a lightweight design. Moreover, even their prolonged use will not be tiring, as the earcups have breathable memory foam, which makes the whole design suitable even for several hours of gaming. Moreover, the headband is adjustable, so it is suitable for almost everyone.
