Ref: 6971824978605

Holder with magnetic wireless charger Choetech H047 (silver)

Choetech H047 magnetic inductive charger stand (silver)

Don't be limited by unnecessary wiring. The modern way of charging is within your reach. The Choetech brand inductive charger supports the MagSafe standard and guarantees fast charging without interference. It automatically recognizes connected devices and handles them with power in the range of 2.5-15 watts, which means it will work well with both smaller and larger electronics. It prevents overheating, overcharging, etc. and features a minimalist, practical design.

Magnetic charging

You no longer need to take your phone out of its case and leave it near an outlet. The magnetic wireless charger is always within your sight and guarantees full charging convenience. It also offers a practical stand function. The charging base has extremely strong magnets that hold your smartphone steadily and ensure interference-free charging. To replenish the energy of your device, simply press it against the base.

Full protection

Your devices will always be safe already. Choetech H047 provides full protection for connected smartphones, headphones, etc. It automatically recognizes the equipment and adjusts the charging power to it, protecting the batteries from overcharging, overheating,

short circuit, etc. With Choetech magnetic charger, the charging speed is up to 67% faster compared to traditional chargers. It only takes a few moments for your equipment to be ready for use again!

Thoughtful design

The magnetic charger was created from aluminum and wear-resistant PC. It has non-slip pads that provide the required stability in any situation. Sturdy magnets guarantee interference-free charging and act as an additional practical stand for your phone. You'll also find a USB-C cable included to help top up the power of multiple devices.
