

7in1 Laptop Stand Docking Station Choetech HUB-M48 (black)

Ref: 6932112104281

7in1 Laptop Stand Docking Station Choetech HUB-M48 (black)

Choetech HUB-M48 7in1 laptop stand (black)

Your laptop lacks space for connecting side devices? Choetech HUB-M48 will solve this problem. It offers 7 additional ports that will allow you to increase the capabilities of your laptop. What's more, the product serves a practical function of a stand, which will save space on your desk and make it easier for you to stay organized.

7 additional ports

Choetech HUB-M48 laptop stand puts at your disposal up to 7 inputs that will make your daily work easier. The USB-C port supports PD 100W fast charging protocols and replenishes the energy of your devices in no time. The USB-C data port allows you to transfer files at speeds as high as 5 Gbps. You also have ports for SD and TF memory cards, 2 USB-A ports to connect a mouse and keyboard, for example, and an HDMI port that supports 4K video. Take advantage of the HUB-M48 and enjoy the full freedom and wide possibilities of your own laptop!

Thoughtful design

The product will not only provide you with 7 additional ports, but will also help you keep your desk tidy and save space. Thoughtful design of the device allows you to position your laptop comfortably. It is compatible with devices up to 17 inches and provides them with

the required stability. Check out how convenient it is!
