

## Magnetic car holder Choetech H066 (black)

Ref: 6932112103703

Magnetic car holder Choetech H066 (black)

Choetech H066 magnetic car holder (black)

Nowadays a car mount is an essential accessory for every driver! Choetech H066 provides the required stability for your phone in any conditions. Featuring a sturdy magnet and a non-slip silicone finish, it is comfortable to use and installation is child's play. Included in the set you will find a bracket, so you can easily place the holder in the air vents of your car.

### Reliable stability

The Choetech H066 mount is compatible with iPhones from the 12-14 series. A strong magnet attracts the device with great force, and 3 arms with a silicone finish further protect it from possible shocks. The bottom arm is designed to easily connect your smartphone to the charger, so you don't have to give up navigation when you want to refill your phone.

### Proven design

The Choetech H066 magnetic car mount is distinguished by its sturdy design, and its installation will not cause you any problems. In the set you will find a mounting bracket, which you just need to place in the car's ventilation grille. The holder is extremely stable and will keep your phone in place in all conditions. What's more, the product has a number of certificates that confirm its compliance with safety standards.
