Bicycle half finger gloves Rockbros S106BK-M Size: M (black)

Rockbros S106BK-M Bicycle half finger gloves Size: M (black)

Get yourself some practical cycling gloves and forget about prints. The Rockbros S106BK-M have been created from stretchable, breathable material and provide unrivalled comfort. They are equipped with special shock-absorbing pads and are distinguished by their non-slip surface. They are also very lightweight, yet durable.

Designed for your comfort

High-quality material has been used for the product, which is characterised by optimum breathability. As a result, the gloves stay dry for a long time and are also ideal for wiping sweat from the forehead. What's more, special padding effectively absorbs shocks and the non-slip surface guarantees a secure grip.

Lightweight and robust

The materials used to make the gloves are very strong and flexible. This makes the product resistant to damage - don't worry about it wearing out quickly. The S106BK are also very lightweight, which translates into even greater comfort. Each glove weighs only around 12g!
