

## Ultrasonic Cleansing Instrument inFace MS7100 (pink)

Ref: 6971308400264

Ultrasonic Cleansing Instrument inFace MS7100 (pink)

### InFace MS7100 cavitation peeling (pink)

The InFace MS7100 cavitation peeling uses state-of-the-art cavitation peeling technology to painlessly and deeply cleanse the skin. Compared to traditional facial cleansing, cavitation peeling is more effective, safer and free of side effects. In addition to cleansing, the ultrasonic waves provide a facial massage. By combining all its functions, the device allows to remove blemishes, impurities and dead skin.

### For clean and fresh skin

The device will allow you to deeply cleanse your skin, making it smooth, shiny, radiant and oxygenated. With its help you will perform a professional treatment in the comfort of your own home, which will smooth your wrinkles, remove blackheads and tighten pores. It will be perfect for people who have skin prone to impurities, blackheads and acne, but also on sensitive skin.

### Thoughtful design

The inFace cavitation peel was designed with attention to detail. The curved design of the spatula adapts to the shape of the face, and the included cover protects the tip from dust. In addition, the thickness of the device does not exceed 15 mm, so its use and storage will not cause you any problems.

#### 4 working modes

The device offers 4 modes of operation, so there is something for everyone. The mode using ultrasonic waves will thoroughly cleanse your face, while positive ions will help clean pores. What's more, negative ions increase the effectiveness of cosmetics, and EMS microcurrent tightens the skin and restores its firmness. To select a mode, press the power button. In addition, the device will automatically turn off after 5 min of non-use.

#### Included

cavitation peeling

USB-C charging cable

user manual

Manufacturer

inFace

Model

MS7100

Color

pink

Dimensions

172 x 42 x 15 mm

Weight

approx. 85 g

Battery capacity

500 mAh

Voltage

3.7 V

Charging intensity

300 mA

Rated power

1.5 W

Charging time

approx. 2 h

Charging intensity

<30uA

Material

304 stainless steel, ABS
