Cable to USB-A / Lightning / 2.4A / 1.2m Joyroom S-UL012A3 (black)

Cable for USB-A / Lightning / 2.4A / 1.2m Joyroom S-UL012A3 (black)

Take care of your devices and provide them with proven solutions for optimal charging. The Joyroom cable is fully compatible with iOS and allows fast charging at lower temperatures. Its sturdy construction makes it resistant to wear and tear, and the transparent design of the Lightning connector adds an interesting touch.

Short charging time

You can significantly extend the life of your smartphone by using proven cables designed for fast charging. The Joyroom S-UL012A3 transmits current at 2.4 A, so you can charge your iPhone 13 Pro to 60% in just 40 minutes. What's more, if your phone fully charges, the cable will automatically turn off the power to protect the connected device.

Highly resistant to wear and tear

The cable is distinguished by its thoughtful design and solid workmanship. The connectors have been coated with gold, ensuring a reliable connection and resistance to oxidation and damage. What's more, the flexible cable has been coated with nylon braid, so it won't get tangled or damaged by bending or pulling.

Full protection

Your devices will be fully protected. The cable is iOS-compatible and allows instant charging of Apple phones and other devices. A smart chip allows you to automatically turn off the power supply when the connected equipment reaches 100% charge. This solution protects the battery from overcharging and overheating. You can easily check the charging status - just glance at the LED inside the transparent connector housing.

Manufacturer

Joyroom
