

Audio cable AUX 3.5mm jack Foneng BM22 (white)

Ref: 6970462516019

Audio cable AUX 3.5mm jack Foneng BM22 (white)

AUX 3.5mm jack audio cable Foneng BM22 (white)

The Foneng BM22 audio cable will allow you, for example, to connect speakers to your computer or headphones to your smartphone. It is distinguished by its wide compatibility and provides high quality sound. The product is also very durable and resistant to damage. The length of the cable is 100 cm.

High sound quality

Thanks to its carefully considered design, the BM22 cable can provide reliable transmission of audio signals and high resistance to interference. The product also supports advanced noise reduction technology. As a result, it guarantees fantastic sound quality with high fidelity and clear, natural sound.

Wide compatibility

The cable is compatible with most devices equipped with 3.5mm AUX ports. For example, you can easily connect it to your smartphone, laptop, computer, car radio, speakers and more. The possibilities are almost endless!

Top quality workmanship

Do not be afraid that the cable will quickly refuse to serve you. The BM22 is very durable, and its most vulnerable parts have received

extra protection. The product is also equipped with gold-plated connectors, which are distinguished by high resistance to oxidation and interference.
