

Audio cable AUX 3.5mm jack Foneng BM23 (white)

Ref: 6970462516033

Audio cable AUX 3.5mm jack Foneng BM23 (white)

AUX 3.5mm jack audio cable Foneng BM23 (white)

The Foneng BM23 cable will allow you, for example, to connect your speakers to your computer or your headphones to your smartphone. Enjoy high sound quality and don't worry about unpleasant rasps - the product supports noise cancellation technology. What's more, the copper cable guarantees reliable signal transmission. The cable is also very robust.

High-quality sound

You want the best possible sound quality? The BM23 cable will not let you down! The copper cable ensures fast and stable signal transmission and the gold-plated connectors guarantee impressive resistance to interference. All of this translates into clear, ear-pleasing sound with high fidelity.

Robust workmanship

The BM23 is made of environmentally friendly TPE plastic, making it highly durable and not very susceptible to damage. In addition, the gold-plated connectors are resistant to oxidation - they will serve you well for a long time. Opt for the highest quality workmanship and don't be afraid that the cable will refuse to serve you too quickly!

Wide compatibility

The 3.5 mm to 3.5 mm audio cable is ideal for many applications. Amongst other things, the BM23 is compatible with smartphones, laptops, computers, music players and more. Using it, you can, for example, connect your phone to your car radio or your speakers to your notebook.
