Powerbank Romoss Ares 20PF, PD 22.5W, 20000mAh (black)

Powerbank Romoss Ares 20PF, PD 22.5W, 20000mAh (black)

Looking for a versatile powerbank that works in all circumstances? You've come to a great place! The Romoss Ares 20PF stands out for its high capacity and offers 2 fast charging ports, so you can replenish the energy of two devices at the same time in no time. Charging the powerbank itself will not be a problem for you, as it provides up to 3 different input ports. High-quality materials ensure the complete safety of the charged devices, and thanks to its compact design, the product will fit into any handbag.

#### Instant charging

Romoss Ares 20PF supports popular fast charging protocols such as PD/QC3.0, FCP, SCP, and AFC, and provides 2 USB-C ports. This makes it easy to charge any smartphone in a short period of time - no need to worry about compatibility. The total charging power is as much as 22.5 watts, so it only takes 30 minutes to replenish your iPhone 13 to 60%.

#### Capacious battery

The product stands out with a capacity of 20000 mAh and will successfully charge your smartphone even several times. The lithium-ion battery has been downsized without losing capacity, so the powerbank does not exceed the size of the smartphone. You will renew the energy in it easily with any cable - USB-C, Lightning or Micro USB, and you will be informed about the level of charge in real time by an easy-to-read LED display.

#### Thoughtful design

The Romoss powerbank is a practical device that features an exceptionally elegant design. Minimalist design, rounded edges and a pleasant-to-touch finish, as well as scratch resistance - this is what you can expect from the 20PF model. Convenient use is ensured by 2 output ports, 3 input ports and a practical LED display that will provide you with information about the charge level of your device.
