Are you looking for a cable with which you can charge various devices? Foneng X62 cable will certainly meet your expectations! It is equipped with special magnetic terminals with different connectors that you can freely exchange. There is a Lightning, microUSB and USB-C connector at your disposal. It offers charging with a current of 5V / 2.4A and ensures safe use.

One cable for multiple devices

Now you only need 1 cable to renew energy in different equipment - you can forget about the need to switch cables or constantly replace adapters. The Foneng cable will not only give you the convenience of your dreams, but also save you time. The magnetic connector was created so that it can be automatically attracted - you just need to bring them closer together!

Safe use

You no longer have to worry about your phone being damaged while charging. The cable is equipped with a smart chip that automatically recognizes the connected device and adjusts the charging parameters to it. This effectively protects your equipment from overcharging or short circuits.
