

Propeller Holder PGYTECH Mavic Air 2 / Air 2s (P-16A-039)

Ref: 6970801336285

Propeller Holder PGYTECH Mavic Air 2 / Air 2s (P-16A-039)

PGYTECH Propeller Lock - safely transport your drone

Ensure the safe transportation of your DJI Mavic Air 2 / Air 2s with the help of PGYTECH's reliable propeller lock. Made from flexible yet durable materials, this accessory is extremely easy to use and doesn't take up too much space. It will provide your drone's propellers with complete safety.

Effective protection for the propellers of your DJI Mavic Air 2 / Air 2s

The accessory effectively keeps the propellers of your DJI Mavic Air 2 / Air 2s in one place. Thus, it effectively prevents them from getting damaged during transportation and storage. No longer do you have to worry about these delicate parts of your drone breaking during travel - the PGYTECH locking device will keep them in perfect condition.

Durable and safe

The product is made of durable ABS plastic and soft silicone. This makes it completely safe for the propellers. They are not in danger of damage, such as scratches. The lock will provide them with comprehensive protection.

Quick and easy installation

Using the lock is extremely easy. It is possible thanks to a convenient to use buckle. Once it is closed, it will not unlock on its own, so you

can transport your drone without worry. Removing the lock is quick and easy so you avoid unnecessary frustration and wasted time.
