XO L40EU 18W mains charger (white)

The XO network charger allows you to charge your devices in no time. It will work great with smaller and larger electronics - it offers power at 18W and supports fast charging protocols. It stands out for its wide compatibility and compact size.

Don't waste time waiting

The product provides a PD of 18 watts, which means you'll replenish your phone's power, for example, already half as fast as with a traditional charger. Using an intelligent chip, the product automatically recognizes the type of connected equipment and ensures the supply of power at the right level, so your devices' batteries will always be safe and charged in the shortest possible time.
