

## Wired Earbuds XO EP56 (Black)

Wired Earbuds XO EP56 (Black)

Ref: 6920680829705

XO in-ear, wired headphones EP56 (black)

Transport yourself to a musical world and delight in the crystal clear and natural sound provided by XO brand's wired in-ear headphones. The EP56 is equipped with 10mm drivers, has a USB-C connector and is widely compatible. Its operation is simple and intuitive thanks to an integrated remote control. The product features a stylish design.

A new musical experience

Nurture your passion for music with XO! The EP56 is equipped with 10 millimeter drivers, so you'll enjoy high-end sound and rich detail. The headphones also provide a wide frequency range. All this makes the sound natural and the tones well balanced.

Convenient operation

The XO headphones have an integrated remote control that allows you to efficiently and conveniently manage incoming calls and audio playback. Just click the appropriate button to stop or resume playing a song, rewind a track, or answer a call. Experience how easy it is!

Thoughtful design

Opt for a combination of functionality, style and comfort. XO headphones have a digital-to-analog converter, which positively contributes to their compatibility. The ergonomic design of the EP56 model allows you to use it for a long time without annoying discomfort.

Moreover, the stylish design of the equipment will delight many users.
