

## Mechanical keyboard Dareu A81 (black)

Mechanical keyboard Dareu A81 (black)

Ref: 6950589914035

Dareu A81 mechanical keyboard (black)

The Dareu A81 mechanical keyboard will perform well both at work and during gameplay. It uses Violet Gold Pro switches, which translates into fast response times. Moreover, it stands out for its smooth and quiet operation. The compact design means that it will not take up too much space - it will successfully fit on a smaller desk. In addition, it catches the eye with its classic design and white LED backlighting.

Quick and convenient connection

Preparing the keyboard for work will not cause you any problems and will take only a moment. The Dareu A81 connects to your compatible device via the included 1.8m USB-A to USB-C cable. As a result, you can enjoy a stable connection.

Carefully considered design

The Dareu A81 keyboard consists of 81 keys, making it perfect for a small desk. In addition, the use of a printed circuit affects the reliable operation of the device. The mechanical keyboard also uses Violet Gold Pro switches, which are distinguished by their fast response time. In turn, the PBT keys are durable and easily yield to the fingers.

Tailored to your needs

Choose the Dareu A81 and enjoy comfortable operation. The mechanical keyboard allows you to program macros to automate selected operations. What's more, N-key rollover is responsible for registering every keystroke and responding instantly. Now you can easily execute a complex key combination while attacking in a game.
