

Switch Box BlitzWolf BW-HDC2, HDMI 2x1, 4K (grey)

Ref: 5907489605816

Switch Box BlitzWolf BW-HDC2, HDMI 2x1, 4K (grey)

The HDMI switch

The HDMI switch is used to connect several different devices to one monitor or several monitors to one device. Necessary when we are lacking HDMI inputs.

Bidirectional

The BW-HDC 2 is bidirectional, which means that it allows us to connect two devices e.g. a console and a computer to one monitor, but also to connect two monitors to one computer.

The highest quality

The switch is able to transmit video and sound without loss of quality.

Smoothness and stability

The device ensures smooth and stable sound and image transmission.

Premium design

High-quality materials are used to make the device look professional and tidy.

Compatibility

The device can be used with all kinds of monitors and projectors in connection with computers, consoles, DVD players, etc.
