

UTOUR C2M 24-hour parking cable 3.5m

UTOUR C2M 24-hour parking cable 3.5m

Ref: 0735749192906

UTOUR Parking cable power adapter for C2M

The Utour power adapter will help you keep your car safe. Combine it with your C2M video recorder to get up to 24-hour monitoring - including when parking. This will allow the camera to continuously record video footage, and if a collision occurs, it will automatically trigger emergency recording. The adapter also supports an under-voltage protection system - if the vehicle's battery is already low, the device will automatically shut down to prevent it from being discharged or damaged.
