

Screwdriver Bit Set HOTO QWLSD003

Screwdriver Bit Set HOTO QWLSD003

Ref: 6974370800260

HOTO screwdriver bit set QWLSD003

Are you looking for a set of versatile bits to help you with your everyday repairs or DIY? The HOTO screwdriver bit set will be perfect for you! These bits will be helpful for assembling furniture, repairing a bike or children's toys, but not only! What's more, they have been made from the highest quality materials, so they are durable and rustproof.

Universal

HOTO screwdriver bits will be the perfect addition to your tool case. In the set you will find 10 of the most popular bits in 50mm size. The longer bits are suitable for narrow slots, deep holes and are great for situations where standard (25 mm) bits can't cope. What's more, you can use them for assembling furniture, repairing your bike or other household appliances.

Excellent quality

The bits have been created with the utmost care. Excellent quality S2 steel has been used in their manufacture and, what's more, they show a hardness of 60 HRC. This makes them robust, resistant to wear and rust and difficult to break.

Easy storage

Don't worry about losing your bits. You can store them safely in the special silicone and breathable stand. It is soft, so you can easily pull

out the bit you need. What's more, it is also environmentally friendly.

Comfortable to use

HOTO screwdriver bits have been magnetised to further increase your comfort. As a result, they attract and hold screws firmly, and you will be able to complete your task with ease. What's more, they will also be easy to assemble and disassemble.
