

Smart Door Window Sensor HomeKit NEO NAS-DS05BH ZigBee

Ref: 6924715900483

Smart Door Window Sensor HomeKit NEO NAS-DS05BH ZigBee

Smart Door Window Sensor HomeKit NEO NAS-DS05BH ZigBee

Make your home safer and more comfortable. The NEO sensor detects if your doors or windows are closed, and if someone opens them, it will notify you immediately. The product is compatible with the TUYA / Smart Life app and Apple HomeKit, and only needs 2 AA batteries to power it. You can also pair it with other devices and create smart scenes. The sensor supports the ZigBee 3.0 protocol - an additional ZigBee gateway (sold separately) is required for operation.

Keep everything under control

The sensor reliably detects if a door or window is open - simply swing it open a minimum of 20 mm. What's more, as soon as something like this happens, the built-in LED indicator lights up immediately and you receive a notification on your phone. You can also check whether a door or window is open or closed at any time - simply switch on the app. Keep your finger on the pulse and rest assured that your home is safe!

Create intelligent scenes

Automate the operation of selected appliances and create a smart home that feels good to live in. All you need to do is connect your sensor to other devices and make the appropriate settings in the app! This way, for example, you can make the lights turn on when you enter the house and the air conditioner stop working when you open a window. The possibilities are almost endless!

Hassle-free configuration

Don't be afraid of problems with the sensor installation - the product is very easy to install and set up. It only needs 2 AA batteries, which you can buy in many shops - the device is distinguished by its long operating time, so you don't have to change them too often. Please note that you will need a special ZigBee gateway for the sensor to work properly, which is available for sale separately.

TUYA and Apple HomeKit compatibility

Enjoy convenient control of your devices. The sensor is compatible with the TUYA / Smart Life app, which will allow you to control it remotely. You can also add it to your Apple HomeKit platform. Have all your devices in one place and enjoy seamless operation - no more switching between apps every time. Find out how convenient it is!

Brand

NEO

Model

NAS-DS05BH

Colour

White

Power supply

2x AA batteries

Amperage in standby mode

6.5 uA
