Door and Window Opening Sensor WiFi NEO NAS-DS05W NAS-TUYA

Do you want to have the closing and opening of doors or windows under control? With the NEO door and window opening sensor, this will be possible! This is an ideal option for people who put security first. Thanks to a dedicated app, you will always have everything under control, even when you are away from home. Enjoy greater protection with the NEO device!

Guaranteed security

The NEO door and window sensor will make your doors and windows smarter, giving you peace of mind and a sense of security. When you leave your home, this device will notify you if a door or window is opened or tampered with by an outside object. This will immediately detect any anomalies in your home. Keep everything under control with a dedicated app that allows you to monitor and manage your security system from anywhere, anytime. Invest in your security and feel confident in your home.

Fast and safe operation

The NEO sensor will provide you with fast and secure operation. You'll connect to it via a 2.4GHz Wi-Fi network, which guarantees a more stable, faster and convenient use. This allows you to easily control your device with your phone. Increase your sense of security with NEO.

Easy installation

Worried about difficult and lengthy installation? With NEO devices you won't be! The whole process is very fast and simple. Just three steps are enough to connect to the sensor. First, connect to a Wi-Fi network, then download the app and add the device. That's all to increase your sense of security.

Long and comfortable operation

The NEO door and window sensor is a combination of security and comfort. It is powered by two AA-1.5V batteries, so it provides a long operating time. What's more, it supports platforms such as Tuya Smart, Amazon Alexa, Google Assistant and Tmall Genie, making it even easier and more enjoyable to use.
