

Smart Water Sensor ZigBee NEO NAS-WS02B TUYA

Smart Water Sensor ZigBee NEO NAS-WS02B TUYA

Ref: 6924715900568

ZigBee NEO NAS-WS02B Water Sensor TUYA flood sensor

Use modern technology to keep your home safe. The NEO NAS-WS02BH flood sensor will automatically inform you of a water leak and you will receive a notification on your phone. This way, you will be able to react in time to avoid damage to the floor, appliances or furniture in the room! The product is compatible with TUYA / Smart Life and is IP66 waterproof. It supports the ZigBee 3.0 protocol - a ZigBee gateway (sold separately) is required for operation.

Real-time notifications

Keep your finger on the pulse and gain the ability to react quickly in the event of possible flooding in your home. The NEO sensor is equipped with a sensitive probe. As soon as it detects a water leak, you will receive an instant notification on your phone! You can also check the status of the device in the app at any time. Keep everything under control and don't worry that your walls, floors or equipment in the room will be damaged due to flooding!

Many applications

The NEO sensor will prove itself wherever there is a risk of water leakage. For example, you can use it in the bathroom - install it near the bathtub, shower cubicle, washbasin or washing machine. You can also use it in the kitchen. Fix it next to the fridge or sink to be informed immediately of any malfunctions! The product is also very easy to install and set up, and thanks to its IP66 waterproof rating, you don't

have to worry about it being damaged by splashes or moisture in the room.
