

Smart gateway LAN HomeKit NEO NAS-ZW05BH ZigBee

Smart Gateway LAN HomeKit NEO NAS-GW02BH ZigBee

Ref: 6924715900537

HomeKit NEO NAS-ZW05BH ZigBee gateway control panel.

Make it easy to manage your smart home. The NEO NAS-ZW05BH gateway allows you to connect different devices together, control them from the TUYA / Smart Life app and automate their operation. All you need to do is pair the selected equipment with it and configure them accordingly! The product also enables data encryption, which translates into security of use. It also supports the ZigBee 3.0 protocol, so it can provide a fast, stable wireless connection.

Control your devices with your smartphone

The NEO gateway will allow you to add selected devices to the Smart Life app. This will give you the ability to remotely control the connected equipment and check its status, you will also receive useful notifications regarding its operation. The NAS-ZW05BH model is also compatible with Apple HomeKit. So you can manage all your smart devices from a single platform!

Hassle-free setup

Pairing your devices with the gateway won't cause you any problems, and you will receive a notification when the process is completed correctly. The product is compatible with a wide variety of equipment such as sensors, alarm sirens, smart outlets, light bulbs, switches and more. The possibilities are truly vast! What's more, the ZigBee 3.0 protocol guarantees a fast, reliable connection - poor signal quality is a thing of the past.

Create smart scenes

Connect selected devices together and automate their work. With the gateway, for example, you can make the alarm siren sound when the motion sensor and the door-opening sensor register that someone has entered the apartment, the flood sensor detects a leak, and the temperature sensor indicates that the room is too warm. Create smart scenes and enjoy more comfort in your home!
