

## IP Outdoor Camera Arenti Power1 2K

IP Outdoor Camera Arenti Power1 2K

Ref: 6972055688127

Arenti Power1 WiFi 2K outdoor IP camera

Keep an eye on your and your family's safety. The Arenti Power1 outdoor IP camera captures high-quality images, and by using artificial intelligence, it detects human movement. It is equipped with a powerful battery that allows up to 6 months of wireless operation. It features an IP65 rating and is resistant to all weather conditions. It supports Android and iOS, and works with Amazon Alexa & Google Assistant voice assistants. What's more, the camera supports two-way audio, allowing you to keep an eye on the kids playing in the backyard and stay in touch with them!

Detects human movement

The camera is equipped with a smart sensor that, when it detects human motion, automatically starts recording and saves the footage on an SD card (up to 256 GB) or in the cloud. What's more, if the camera records motion, you will be notified via the app. In addition, when motion is detected, the camera automatically turns on the spotlight and illuminates the space within a 10-meter radius.

Great image quality regardless of the time of day

Arenti Power1 is a camera that captures images in 3MP 2K resolution. What's more, the camera uses 2 night vision modes - full color and infrared, which has a range of up to 10 meters. This means that the recorded image is clear and crisp, regardless of the time of day it was recorded.

#### More possibilities with the app

A dedicated app allows you to play back the video recording in real time. With the app, you can also monitor the situation remotely, even when you are away from home. The app works with Android and iOS, so you can easily connect to the camera using any phone.

#### Powerful performance without unnecessary wires

The Power 1 uses a battery with a capacity of as much as 9600 mAh. Its single charge provides up to 6 months of camera operation. Its installation requires no additional wiring, which means you can place it anywhere. The camera's mounting is magnetic and allows you to adjust its angle.

#### Reliable in all weather conditions

The product is distinguished by its robust metal construction, and its protection rating is IP65, which means that the camera can handle any weather conditions. It is water resistant and can operate at temperatures from -20°C to 50°C. Fearlessly install it outdoors and have an impact on the security of your home.
