Remax Live-stream tripod (black)

The Remax tripod will allow you to record comfortably. Thanks to the fold-out legs, it can also function as a tripod, and the swivel design allows you to adjust the operation of the P13 to suit your needs. What's more, the remote shutter button makes it easy to take photos, and Bluetooth 4.2. is responsible for a stable connection.

Built-in LED light

Take care of the right lighting when creating recordings and photos. The tripod is equipped with a dual LED lamp, which you can adjust according to your needs. You can choose between 3 colour temperature levels and adjust the brightness on 9 levels. There are also 3 light colours available: cold, warm and warm-cold.

Remote picture taking

Make it easy to take photos. The tripod features a detachable remote shutter button, with which you can quickly and conveniently take a photo or start recording. The product uses Bluetooth version 4.2 and provides a stable interference-free connection of up to 10 m.

Well thought-out design

The tripod has been created from aluminium alloy, which translates into a lightweight construction and product durability. The non-slip

finish on the legs provides stability and prevents the tripod from moving, and the 360° adjustability increases freedom of use.
