Remax Kinyin RB-680HB gaming headphones

Immerse yourself in the world of gaming with the Remax Kinyin RB-680HB. The headphones provide HiFi class sound and are perfect for gaming. What's more, they work wirelessly and connect to your compatible device via Bluetooth 5.3, while the microphone allows you to communicate with other players.

High-quality sound

Now you can hear the footsteps of approaching enemies and invading vehicles! The headphones use 40-millimetre drivers, which are responsible for clear and bass-rich sound.

Wireless operation

Say goodbye to interference! The headphones use Bluetooth version 5.3, which translates into a fast and stable interference-free connection of up to 10m. What's more, it has also been equipped with a 3.5mm audio port, which will allow you to connect the RB-680HB to other headphones.

HD microphone

Talk to other players without interference. The Remax RB-680HB have a built-in microphone that accurately captures your voice and will

be perfect for more than just gameplay, calls, live broadcasts and more. What's more, you can adjust its position as you are comfortable.

Simple, intuitive operation

Using the headphones is simple and convenient, so you won't have any problems operating them. The Remax RB-680HB are equipped with a convenient rotary knob and buttons that you can use to adjust the volume, stop playback, skip a song, etc. In addition, the colour indicator provides you with information on the operating status of the headphones.
