

Filter 1-5 stop Freewell Sherpa True Color VND Mist for the Filter 1-5 stop Freewell Sherpa True Color VND Mist for the iPhone 13 / iPhone 14

Ref: 6972971860102

Freewell Sherpa True Color VND Mist 1-5 stop filter for iPhone 13 / iPhone 14

Designed for the Sherpa series cases, the Mist Edition True Color Variable VND 1-5 Stop filter helps reduce sharpness for a more cinematic effect to your photos. It provides exposure reduction from 1 to 5 stops, allowing you to use wider aperture settings for shallower depth of field or motion blur. To change the effect, simply twist the filter ring. Thanks to True Color technology, this filter renders colors faithfully while resisting dust, scratches and greasy stains.

Use with Sherpa case

If you use a Sherpa case, this filter is for you! It is compatible with the case suitable for iPhone 13 - 14 and mounts magnetically. So you can mount or replace the filter in no time and easily experiment with interesting effects for your photos.

Protective coating

Made of the highest quality materials, the filter has a special protective coating that does not affect the color optics of the materials created. The filter is therefore resistant to dust and scratches, as well as fingerprints and the formation of greasy stains, so keeping it clean is no problem at all. At the same time, it provides the best image quality and allows you to maintain neutral image colors. Your photos will be stunning!
