Tronsmart Sparkle gaming headphones (black)

Looking for the perfect complement to your gaming zone? Tronsmart gaming headphones will be perfect for you! They are distinguished by a 50mm driver, which guarantees perfect surround stereo sound. You will never be surprised by your opponents again! What's more, it will perfectly match the atmosphere of your game, thanks to different RGB lighting modes.

Excellent sound quality

Tronsmart Sparkle headphones were created with gaming fans in mind, so they are equipped with a 50-millimeter driver. It guarantees excellent stereo surround sound. As a result, you will always hear the footsteps and breathing of your opponent. What's more, they stand out for their high compatibility, as they are suitable for PlayStation 4 and 5, PC, laptops or Nintendo Switch. From today, you can enjoy perfect sound while playing games on various devices!

Tailored for conversations

Sparkle headphones will also allow you to talk and set tactics freely with your team members, as they are equipped with a directional microphone. Your conversations will be crystal clear, so you'll gain confidence that the others will hear your every word. What's more, when you're playing a solitary game, you can fold down the microphone, for even more comfortable use of the headphones.

Climatic backlighting

Sparkle gaming headphones will adapt to your gameplay and your tastes with RGB lighting effects. There are several different modes at your disposal (such as RGB illumination or colored monochrome light), which you can easily change at the touch of a button. This will make your gameplay even more exciting!

Comfort of use

Tronsmart headphones will not only be a great addition to your gaming zone, but they are also extremely comfortable to use. They are distinguished by soft earcups with a memory function and an adjustable headband that you can easily adjust to your head. What's more, their operation is equally simple. You will change all the most important functions with just a few buttons, which are placed on a special panel on the cable.
