

Set of 4 filtrów ND 128/256/512/1000 Freewell for DJI Mini 3

Ref: 6972971860386

Set of 4 filtrów ND 128/256/512/1000 Freewell for DJI Mini 3 Pro / Mini 3

Freewell set of 4 filters for DJI Mini 3 Pro / Mini 3

The Freewell filter set for the DJI Mini 3 Pro / Mini 3 drones is a useful accessory for anyone who wants to get great quality photos and videos, no matter what the lighting conditions are! In the set you will find 4 ND filters - ND128 filter, ND256 filter, ND512 filter and ND1000 filter, which allow you to adjust the light entering the lens and get the right exposure. The set also includes a special case to safely store the filters and protect them from mechanical damage.

Tailored to suit different needs

Looking for a way to get breathtaking footage in different lighting conditions? Freewell comes to the rescue! The kit comes with 4 different ND filters that reduce the amount of light reaching the lens to achieve the right exposure. At your disposal is an ND128 filter, an ND256 filter, an ND512 filter and an ND1000 filter. Now you are free to adjust the filter value to suit the prevailing conditions. An exceptionally sunny day? Or do you want a natural blur effect? Nothing is impossible with Freewell!

High-quality workmanship

The filters are made of high-quality German optical glass, which is characterised by its incredible resistance to scratches, dust or oil stains. So you can be sure to keep them in great condition for a long time! You will have no problem fitting them. Nor do you have to worry about them interfering with your drone's operation! A case is also included to keep the filters safe and protect them from damage.
