Gaming keyboard KB512L PRO (white pink)

Ref: 6939119046682

HAVIT KB512L pro gaming keyboard (white and pink)

Are you looking for a compact keyboard for thrilling games? The Havit KB512L Pro is the perfect choice for gaming enthusiasts. It features 89 keys with a lifespan of up to 50 million clicks. Thanks to the N-key rollover function, you can freely press any number of keys at the same time. The compact design means that the keyboard will not take up much space. Also noteworthy is the coloured backlighting, which gives it an unusual character.

Reliable performance

The KB512L Pro features 89 mechanical keys for smooth operation and fast response time. And with a life expectancy of up to 50 million key presses, you can be sure it will last a long time. What's more, the keys feature N-key rollover, so you can press as many keys as you want, with each keystroke precisely registered. Now you can easily beat any rival and break new records!

Compact design

The lightweight and compact design makes the keyboard perfect for small spaces. It certainly won't take up much space on your desk! And you don't have to worry about wrist pain and fatigue during prolonged use - thanks to the keyboard's ergonomic design. So you can play your favourite games for as long as you like in the comfort you dream of!

Coloured backlighting

The keyboard is equipped with coloured backlighting, which gives it a unique character. This makes the KB512L Pro the perfect addition to your gaming station! You can easily customise the backlighting to your liking by simply pressing the appropriate key.
