Smart Light Switch ZigBee Avatto LZTS02-EU-B1 1 Way No Neutral TUYA (black)

Smart Light Switch ZigBee Avatto LZTS02-EU-B1 1 Way No Neutral TUYA (black)

The Avatto LZTS02-EU-B1 touch switch is perfect for your smart home. It allows you to conveniently turn the light on and off, and thanks to its compatibility with the TUYA / Smart Life app, it allows you to control the lighting from a distance. You can also control the device with Amazon Alexa and Google Assistant voice assistants. The switch is also distinguished by its water resistance and sleek, minimalist design. The product is equipped with 1 button and supports the ZigBee 3.0 communication protocol - an additional ZigBee hub (not included) is required for proper operation.

Remote control with the app

Not sure if you turned off the light before leaving the house? You don't have to wonder anymore - just reach for your phone! The switch is compatible with the TUYA / Smart Life app, so you can turn the lights on or off remotely, from your smartphone. You also gain the ability to create timers and work schedules for your devices. Do you usually get up at 7:00 am and go to bed at 11:00 pm? Set your lights to automatically turn on and off at those times.

Even more possibilities

The app offers many more possibilities. For example, you can connect your devices and control them in groups. It's also possible to pair switches with other devices to create smart scenes. Take advantage of an additional motion sensor, for example, and make the lights

automatically turn on when you enter the house! You can also share your devices with other family members so that they too can control them from their smartphone.

Voice control

Do you have busy hands while cooking and could use some extra lighting? Or maybe you're lying in a comfortable bed and want to turn off the lights? No problem - the Avatto switch is compatible with Google Assistant and Amazon Alexa smart assistants. So you can control it with voice commands! Now all it takes is a few words to quickly turn the lights on or off.

Enhanced design

The switch features a stylish, minimalist design - it will perfectly complement any decor. Thanks to its simple design, it is also very easy to clean - just wipe it clean of dust once in a while. It is also distinguished by its high durability and resistance to fading, scratches and other types of damage. In addition, the switch is waterproof - you can install it in the bathroom without worry. The device is also equipped with a backlight, which can be turned on or off at any time.

Simple installation - pleasant operation

Mounting the device won't take too long and won't cause you any problems - a neutral wire is not required. The switch can also remember its status - even if the power goes out, it will automatically restore the last settings once the failure is over. What's more, the product's button is very pleasant to the touch and allows for convenient operation.
