Smart Light Switch WiFi Avatto N-TS10-B1 1 Way TUYA (black)

Smart Light Switch WiFi Avatto N-TS10-B1 1 Way TUYA (black)

The Avatto N-TS10-B1 touch switch will find its use in every home, office or hotel. It allows you to conveniently switch the light on and off, and you can also control it remotely using the TUYA / Smart Life app. The device is also compatible with Amazon Alexa and Google Assistant, allowing you to control it with voice commands. The product connects via Wi-Fi and has been equipped with 1 button. It is very easy to install and features a modern, stylish design.

Control the light from a distance

Feel like you forgot to switch off the light before leaving the house? No problem - now you can do it with your smartphone! The Avatto switch is compatible with the TUYA / Smart Life app, which will allow you, among other things, to remotely switch the lights on and off from anywhere. All you need to do is reach for your phone! If you wish, share your devices with the rest of the family so that they too can control them remotely.

Additional possibilities

The app also allows you to create an operating schedule for specific devices. Set your lights to automatically turn on in the morning when you get up and off at night when you go to bed! You can also use timers and control selected appliances in groups. It is also possible to pair switches with other devices, such as sensors, to create smart scenes. Make the lights automatically turn on as soon as you enter the

house!

Compatibility with voice assistants

Are you lying in a comfy bed, don't have your phone handy, and want to turn off the light? Or maybe you are just cooking something and could use some extra lighting, but your hands are busy? The Avatto switch will prove its worth in these and many other situations! The device is compatible with Google Assistant and Amazon Alexa assistants. So you can control it with your voice - a simple command is all it takes to turn the light on or off!

High-quality design

The Avato switch will fantastically complement the décor of any room - it features a stylish, minimalist design. It features a glass panel that is scratch-resistant and easy to clean - simply wipe it clean of dust. The unit is also very simple to install and set up. The switch also has a gentle backlight to make it easy to locate in the dark. If you wish, you can turn it off so it doesn't disturb your sleep.
