Ref: 6976037360537

Smart WiFi Roller Shutter Switch Avatto N-CS10-B TUYA (black)

Smart WiFi Roller Shutter Switch Avatto N-CS10-B TUYA (black)

The smart switch by Avatto will be useful not only at home, but also, for example, in the office, restaurant or hotel. It allows you to conveniently control roller blinds, and you can also control it remotely, using the TUYA / Smart Life app. What's more, the device is compatible with Amazon Alexa and Google Assistant voice assistants. Set work schedules and create smart scenes - the possibilities are truly vast. The switch supports connection via Wi-Fi and features a stylish, minimalist design.

Remote control with the app

Control your blinds with your smartphone. The switch is compatible with the TUYA / Smart Life app, which offers plenty of interesting features. Now you can open or close your windows remotely with just a few clicks! You can also control your devices as a group or share them with other family members so that they too can operate them remotely.

Even more possibilities

Customize the operation of your home's blinds to fit your lifestyle. The app allows you to create timers and operating schedules, so you can make your windows automatically open in the morning when you wake up, and close them in the evening after the sun goes down. You also have the option to pair the switch with other devices such as sensors. Set it up so that, for example, the blinds open when you enter the room!

### Compatibility with voice assistants

Are you lying in a comfortable bed and want to go to bed right away, but still need to close the windows? Don't have a smartphone at hand? No worries - you don't have to get up or reach for your phone! The switch is compatible with Google Assistant and Amazon Alexa, so you can control it with simple voice commands. With just a few words, you can quickly cover or uncover a window without moving from your seat!

### Modern design

The Avatto switch will fit perfectly into almost any decor. It features a modern, stylish design and a simple construction, so you won't have any problem cleaning it. The device is also very easy to install. What's more, high-quality materials were used to make the switch, which will not fade or deform even after prolonged use. Also noteworthy are the soft backlighting (which can be turned off) and the elegant glass panel, which is scratch-resistant.

### Brand

Avatto

### Model

N-CS10-B

### Color

Black

### Frequency

2.412-2.484 GHz

### IEEE wireless standard

802.11 b/g/n

### Rated power

600 W

### Rated current

10 A

### Input voltage

AC 85-265 V, 50/60 Hz

### Output voltage

AC 85-265 V, 50/60 Hz

### Power consumption

≤ 0,45 W

### Material

ABS

### Panel material

Tempered glass

### Dimensions
