

Power charger Green Cell GC PowerGaN 65W (2x USB-C Power Del

Ref: 5907813969102

Power charger Green Cell GC PowerGaN 65W (2x USB-C Power Delivery, 1x USB-A compatible with Quick Charge 3.0)

Green Cell GC PowerGaN 65W mains charger (2x USB-C Power Delivery, 1x USB-A Quick Charge compatible)

GC PowerGaN is a universal charger that will allow you to power the devices you use every day. Power up your laptop, ultrabook, tablet, phone, headphones - with 65W of charger power you can power any of these devices, and with three ports (2x USB-C and 1x USB-A) you can charge them simultaneously. No more multiple chargers and tangled cables!

Purposeful design

Do you value practical and thoughtful solutions? Do you choose devices that are multifunctional and designed with the user in mind? The GC PowerGaN 65 W is a mains charger that will meet your expectations and improve your consumer electronics experience. Why? Simple! The compact size of the device makes it work anywhere: in the office, at home and on the go.

The perfect mains charger for travelling

The GC PowerGaN 65 W is a travel charger that is ideal for travelling. It is much smaller than other solutions of its type with similar power. The compact size of the device will save space in your suitcase - instead of 3 different chargers, take one to power your laptop, phone, headphones or any other compatible device. Plus, the ability to charge several devices at once will save you time. Feel independent - wherever you go!

GaN technology

Until now, silicon has been used to manufacture the semiconductors inside the charger. By replacing it with gallium nitride, the components can be arranged closer together, thereby reducing the size of the device. Importantly, the performance of the GC PowerGaN 65 W mains charger has been maintained. The use of GaN technology also guarantees low energy loss and protection against overheating of the charger.

Intelligent charging

Power distribution enables the connected devices to be charged optimally. Depending on which port you are using, the mains charger adjusts the charging power to provide you with the fastest and most favourable power supply. For example: when charging 3 devices simultaneously, the GC PowerGaN 65 W will distribute the power to three independent ports: USB-C Power Delivery 30 W, USB-C Power Delivery 18 W and USB-A Ultra Charge 18 W, so you can charge your ultrabook, phone and headphones at the same time.

Manufacturer

Green Cell

Model

CHARGC08

Power

65 W

Input

100-240 V, ~50/60 Hz, 1.7 A Max.

USB-A output

1x USB-A: 5 V/3 A, 9 V/3 A, 12 V/3 A, 20 V/1.8 A (max. 18 W)

USB-C output

2x USB-C: 5 V/3 A, 9 V/3 A, 12 V/3 A, 15 V/3 A, 20 V/3.25 A (max. 65 W)

Rapid charging technology

Power Delivery 3.0, PPS, Green Cell Ultra Charge

Compatible fast charging technologies

Quick Charge 3.0, Samsung AFC, Huawei FCP/SCP

This charger is not compatible with

Lenovo Yoga

Protection against overheating

Yes

Short circuit protection

Yes

Colour

Black; Panther black

Surge protection

Yes

Ports

2x USB-C, 1x USB-A

Charger type

mains

Certifications

LVD, EMC, ErP, RoHS, REACH

Dimensions

92.5 × 55 × 32 mm

Weight

127 g
